BASIC CONCEPTS

Tariff – is a complex of services chosen by you, comprising of charges for calls and monthly flat rate.

Monthly flat rate – is a fee of selected tariff regularly charged. A proportional part of the monthly flat rate will be charged, if the tariff is used only during a part of a month (activation or tariff change in the course of a month, or disconnecting for holiday purposes are possible).

Free minutes – minutes free of charge which are used during a certain billing period for national rate of charged calls. They are not used for calls free of charge, calling the operator, NetCall *55 service and for data and fax services. A proportional part of free minutes may be used if the tariff is used only for a part of the month (activation, tariff change or its content in the course of a month, or disconnecting for holiday purposes are possible).

Free SMS – SMS free of charge which are used during the course of an appropriate billing period for outbound text messages within the Eurotel network.

National rate – is a rate for outbound calls from a mobile phone within the Eurotel Praha network to any location in the CR, including all interconnecting fees for fixed lines, Eurotel Praha network and other operators in the CR.

International rate – is a national rate increased by an additional international charge.

Special rate – is a rate for outbound calls, it remains the same for all tariffs. Free minutes do not apply to it.

Time periods – charges for calls are related to the time periods in which you are calling:

Tariff Eurotel Relax, Eurotel Relax Plus

If the total amount does not exceed or is equal to the Minimal fulfilment, Eurotel will offer a 100 % discount from the Minimal fulfilment to the participant. If the total amount is higher than the Minimal fulfilment, Eurotel will offer a discount of Czk 150,- to the customer.

Roaming – is a service which enables you to use your mobile phone and services of Eurotel Praha when travelling abroad. In all countries mobile phones are maintained by a local operator with whom Eurotel Praha co-operates on the grounds of a roaming agreement. Charges for services of the foreign operators derive from their prices.

Voice mailbox of Eurotel Express – the services are activated when the Contract is signed. They enable to leave a message for the recipient of the call.

In case the Voice mailbox is not used for a period of 3 months, it may be automatically deactivated. You may ask for reactivation at the Customer Service Department of Eurotel Praha
